Policies *not* included in Loss Run Report

Some policies/accounts are **not** shown in a Loss Run Report including:

- Multinational policies:
 - Locally admitted policies (aka underlyers) issued by Chubb offices outside the U.S. written as part of a global program **will not** display on Loss Runs.
 - Locally admitted policies (aka underlyers) issued by an Affiliate carrier written as part of a global program **will** display on Loss Runs.
 - Master policies such as World Network and Customarq Global **will** display on Loss Runs.
- Surety accounts/policies.
- Accident Benefit Life (ABL) accounts/policies.
- Policies written by Canadian branches.

Additional Information

- Entire amount of the loss is displayed for all losses, regardless of deductibles.
- Specialty claims display "Not Applicable" (NA) while the claim is open.
 - Specialty reserves are not displayed.
 - Specialty payments are only displayed when all features are closed.
- If no claims exist, zeros display for financials on the Summary page and no Detail page is available. If one policy has losses and one does not, the Detail page displays for the one with claims.
- A U.S. policy containing losses incurred at Canadian locations display when paid with U.S. dollars.

System Time Out

A message displays at 1 minute. It indicates that there are a substantial number of claim occurrences associated with the account/policy. We encourage you to continue.

In the rare instances your request times out, you are instructed to contact your local branch who will assist you. Your request cannot be completed in Loss Runs.
