1 Beagle Services ("Beagle") may carry a limited inventory or assist client with purchase order and specifications of approved third-party leak detection devices. Chubb has negotiated preferred pricing of installation costs for Chubb policyholders. Beagle may charge an initial onsite visit assessment fee which can be applied to the installation of an approved device. Installation of electrical outlets or other services may be extra. Assistance with the device operation, settings and adjustments are a critical step provided by Beagle that many other third-party plumbers neglect. Beagle is equipped to evaluate VIP and large complicated plumbing systems to determine which devices and accessories to install where appropriate. Beagle is a full-service plumbing company capable to conduct many plumbing-related services upon request, including other insurance related concerns such as the inspection and replacement of supply valves and hoses located under sinks/toilets or installing seismic shutoff valves. Installation of electrical outlets, accessories, or other services may cost extra. All post-loss benefit coverage is subject to the language of the policy as issued.

Devices, products, or services described herein may be provided by third-party vendors not affiliated with Chubb. Chubb assumes no liability or responsibility for products and/or services provided by such vendors. Before making a selection regarding a water shut off device and its installation, carefully review your plumbing system and the various mechanical devices and appliances running on this system with your licensed plumber or installation professional. Chubb is the marketing name used to refer to subsidiaries of Chubb Limited providing insurance and related services. For a list of these subsidiaries, please visit our website at www.chubb.com. Insurance provided by ACE American Insurance Company and its U.S. based Chubb underwriting company affiliates. All products or services may not be available in all states. (Ed. 03/2024)
