

## Home Security and Water Defense Overview

As a homeowner, you may worry about the risks of fire, burglary and water leaks while you're away. After all, these losses can cost a lot of money and can leave you feeling frustrated and angry. However, if you have smart home security and a water leak prevention plan, you can travel confidently, knowing you have the protection and resources you need if something happens while you're away.

If you install a new home security system and/or a water leak detection system, you may receive a discount on your Chubb homeowner's insurance premiums. Plus, if you choose an ADT and/or Sentinel Hydrosolutions Leak Defense System®, you may receive a Chubb customer discount from those companies as well.

### Home Security

**Smart home protection through ADT Custom Home Services**  
Call 1-800-808-9996 to get started today.

Nothing spoils a great vacation like finding out your home was broken into while you were away. Deter criminals from getting into your home. Install a home security system.

## Water Defense

**Protect your home against water damage with H2O Damage Defense Service Call 1-855-422-3426 to get started today.**

When you're away from home, a burst pipe, leaking water heater or cracked dishwasher hose can cause tens of thousands of dollars in water damage and destroy irreplaceable personal items. In addition to turning off the main water valve before you leave, make sure you've installed the proper systems to detect and prevent water damage.

With a Sentinel Hydrosolutions Leak Defense System, you can travel confidently, knowing this state-of-the-art system will detect and shut off leaking pipes or fixtures before water can cause damage to your home.

### Here's how it works:

**Water flow sensors installed to monitor all water entering your home and shut-off valves** are installed in your main water supply to stop the flow automatically if a leak is detected.

**Control panel with alarm** are installed and set to automatically stop water flow if it exceeds your preference of a specific water level for a specific period of time.

- Adjust it for extended usage, so it doesn't interfere with your household's lengthy showers, garden sprinkler or lifestyle.
- An alarm will immediately notify you and your plumber of any potential catastrophic leak.
- The system can be integrated into your smart home or security system and can be monitored remotely via an app.

**\$66,900.<sup>2</sup>**

On average, frozen pipes will cost a homeowner

### Additional savings for Chubb customers

- Up to 35% off the price of the Leak Defense System
- Additional savings on homeowner's insurance premiums
- Save 10% or more on your water bill, if your home experiences the same water loss as the average home

**If you have questions, please contact your agent or broker.**
