Service - Complimentary password management solution

In partnership with Dashlane

Remembering passwords is difficult. Remembering secure, complex passwords for every account you use can be almost impossible. The answer is Dashlane, the all-in-one solution that remembers and automatically fills in your passwords, logins, personal info, and payment details—quickly and accurately. You can even share passwords with colleagues without ever revealing the real password. Dashlane makes it easy to have strong, unique passwords for everything, because passwords are the foundation of sound online security practices.

Included free with our Cyber ERM policies, Dashlane also offers a suite of advanced tools to help secure and control all your online information. With its built-in VPN, Dashlane encrypts online activity on unsecure Wi-Fi networks to always keep personal information safe and private. Dashlane will also assist with Dark Web Monitoring, and will scan the web and alert you if your personal information is ever found where it doesn't belong.

The programme

Eligible cyber policyholders have free access to:

- Dashlane Premium password management and digital protection solution for up to 500 employees
- 12-month license term
- 20% discount on the Dashlane Business enterprise solution

Benefits

- Improve cybersecurity by making it easier to create strong passwords and change weak ones
- Benchmark the passwords you currently use to help identify and correct risky accounts and behaviors
- Automatically log in to websites so you don't have to remember or type passwords
- Receive instant security alerts to your computer or mobile device when websites you have an account with experience a breach
- Change multiple passwords with the click of a button without leaving the app

- Synchronise and back up passwords across multiple devices so you can access them securely anywhere
- Enroll up to five email addresses in Dark Web Monitoring to receive alerts if any personal information associated with those email addresses is found on the dark web
- Encrypt, store, and access up to 1 GB of sensitive files in Dashlane
- Browse more securely online with a built-in VPN and unlimited data across an unlimited number of desktop and mobile devices
