Motor Fleet Safety Services

The large fleet and transportation services industry is rapidly changing. Companies are seeking creative and flexible ways to enhance employee wellbeing while maintaining and adhering to regulatory standards. ESIS offers an entire suite of services designed to help you protect your people while reducing the frequency and severity of losses.

ESIS understands the importance of commercial fleets maintaining a satisfactory safety fitness rating with the Department of Transportation (DOT) as well as adhering to the Comprehensive Safety Analysis 2010 (CSA 2010) Safety Management System (SMS) standards. ESIS' experienced and knowledgeable fleet specialists can assist your fleet manager in ensuring compliance to both of these regulatory programs.

ESIS fleet specialists can assist professional fleet managers with a full range of flexible services designed to help improve your fleet safety program and, as a result, reduce losses in fleet-related exposures.

Driver selection

- Driver selection guidelines/procedures
- Age and experience requirements
- Motor Vehicle Record (MVR) evaluation
- Background check technology
- Comparison of practices with other companies
- Commercial Drivers License (CDL) training resources
- Pre-employment physical testing
- Job fitness requirement
- Interviewing techniques

Driver retention

- Best practices for driver retention
- Driver pay
