

Risk Engineering Resource Center - Online Portal

With proprietary tools and resources for Chubb Construction clients

CHUBB®

The Risk Engineering Portal provides an introduction to Chubb Construction Risk Engineering capabilities, products and services, as well as access to our online Resource Center designed exclusively for current Chubb Construction insureds.

The Construction Risk Engineering online Resource Center provides Chubb clients with tools and information designed to support their companies' efforts to maintain a proactive safety culture. The Resource Center can be a valuable addition to an Chubb Construction client's safety and risk management library. It is another demonstration of the Chubb commitment to assist our construction clients in their risk management efforts.

From the Resource Center, Chubb clients can view, print and download proprietary products, tools and resource materials, designed by a dedicated team of Chubb Construction risk engineers. Chubb Construction provides these resources as an adjunct to our underwriting process.

The online Resource Center contains a number of safety resources on subjects critical to organizations involved in construction-related activities. Each section of the Resource Center covers specific topics and provides information related to that topic. Highlights of the Resource Center include:

- **Construction Resource Guides:** information about areas that impact day-to-day construction operations and safety related activities.
- **Information Sections on Cranes, Construction Defect and Water Intrusion:** valuable information that discusses proactive management in these areas, including Chubb Construction Defect Inspection and Verification Records forms.
- **Loss Analysis/Trending:** information that assists clients in analyzing their losses and determining safety trends, including a sample loss analysis/trending report, which can be used to monitor and benchmark the overall safety performance of your organization and projects.

- **The Diagnostic Tune-Up:** enables clients to evaluate their organizations' safety program and overall safety culture. Focuses on evaluating management commitment, fall management, subcontractor selection/management, fleet safety, quality control/quality assurance and substance abuse, based on a series of best practice controls for each of these categories.
- **Chubb Contractor Training Programs:** Chubb risk control consultants can assist clients' training of their staff as an adjunct to our underwriting process.
- **Construction Safety Investigator (CSI) Country Wide Tool Box Talks:** a library of Construction Safety Investigator Talks that provide construction personnel with a guide to conduct on-site safety discussions. These tools provide best practices and engage the participants in meaningful dialog during these valuable meetings. CSI's are available on a wide variety of construction-related topics.
- **Other Resources:** links to government and industry related web sites.

Chubb. Insured.SM

Chubb is the marketing name used to refer to subsidiaries of Chubb Limited, providing insurance and related services. For a list of these subsidiaries, please visit our website, www.chubb.com. Insurance is provided by ACE American Insurance Company and its U.S. based Chubb underwriting company affiliates. All products may not be available in all states. This communication contains product summaries only. Coverage is subject to the language of the policies as actually issued. Surplus lines insurance is sold only through licensed surplus lines producers. Loss control evaluations, reports, recommendations and services are made solely to assist the insurer in underwriting and loss control and are not to be construed as an added benefit for the insured, property owner or any other party (this may not apply if loss control services are purchased separately and specifically pursuant to a service agreement). Evaluation for any hazard or condition does not imply that it is covered under any policy. Chubb is the world's largest publicly traded property and casualty insurance group. With operations in 54 countries, Chubb provides commercial and personal property and casualty insurance, personal accident and supplemental health insurance, reinsurance and life insurance to a diverse group of clients. Chubb Limited, the parent company of Chubb, is listed on the New York Stock Exchange (NYSE: CB) and is a component of the S&P 500 index. Copyright ©2016 (Rev. 6/16)
