

Ocean Cargo – Worldwide Transit Benefits

At Chubb, we're dedicated to providing our clients with the most comprehensive and effective coverage options to manage Ocean Cargo risks, such as protecting goods or products shipped internationally and covering transit within a country or at storage locations.

That's why we'd like to offer the benefits of Chubb's Ocean Cargo coverage:

When Purchasing a Policy:

- Do you understand the full exposure when shipping product?
- Does your current insurer cover goods shipped via airplane, ship, train, and truck?
- How well do you know your overseas trading partners?
- Have you ever filed a claim, only to be frustrated with the claims settlement process?
- Do you insure your shipments one container at a time?
- How much value do you ship annually?

Benefits from Chubb:

- Cargo policy can insure inland transit, inventory, and catastrophic perils.
- Owned offices in 54 countries.
- Local admitted policy capability where required and permitted by law.
- Specialized ocean marine claim adjusters.
- Consistency and cost effectiveness.
- Coverage available for ancillary risks like contingency, general average, concealed damage, etc.
- Risk assessment and loss analysis services are provided through our Marine Risk Management team.
- Online certificate issuance system with 24/7 access.

Assured Benefits:

- Insurance policy can be tailored to the Assured's risks.
- Carrier and Insured work to reduce loss experience.
- Cost effectiveness.
- Subrogation rights can benefit the Assured in the long run.

Chubb coverage offers more control over costs and claims than insurance through a freight forwarder or relying on any third party to be responsible for your shipments. Also, our online Certificate Issuance System provides instant proof of insurance for lenders and clients.
