

Mortgage Repayment Cover

What is Mortgage Repayment Cover?

Insurance that pays you a monthly amount to help cover your mortgage repayments, rent or to compensate you for lost income if you were to become disabled as a result of illness or injury.

Why do you need Mortgage Repayment Cover?

Making sure your mortgage repayments, rent or your ability to earn an income, are protected makes sense. Mortgage Repayment Cover helps relieve the financial responsibility of having to pay your mortgage or rent, or helps provide ongoing support, if you become disabled and can no longer earn an income.

You can choose to cover up to 115% of your mortgage or rent, or up to 45% of your income. This means that your cover will not only pay your mortgage or rent, but can help cover additional expenses such as:

- › home and contents insurance
- › rates

If your monthly sum insured is more than \$7,500, the amount above \$7,500 will be reduced by any income you earn from working and any other income or benefit you get, or can get from other sources because of the same disability. This doesn't include any sick leave and welfare payments.

Occupation classes: 1-5

Your occupation class is determined by the work you do. Your financial adviser will be able to help you work out what occupation class will apply to you.

Built-in benefits

Mortgage Repayment Cover provides the following benefits that are built-in:

Benefit	What is it?	How it works	Why it's important
Total Disability Benefit	A monthly payment to help cover your regular mortgage repayments or rent or to compensate for lost income.	If you become totally disabled as a result of an illness or injury, a monthly benefit may be payable. Payments begin at the end of the waiting period.	Helps you meet your payments and ensure your home is secure if your ability to earn an income is seriously affected.
Partial Disability Benefit	A monthly payment if you become partially disabled.	If you've been totally disabled or partially disabled during the waiting period, and then return to work with a partial disability where an illness or injury causes you to be unable to work more than 75 percent of your pre-disability hours from your pre-disability occupation, a monthly benefit may be payable once the waiting period ends.	Allows you to ease back into full-time work by making sure that you do not suffer financially.
Life Events Benefit	Allows you to increase your sum insured by up to \$1,500 per month if you experience a certain life event, without assessment of your health.	These certain life events include borrowing more under an existing residential mortgage, an increase in rent, buying a new home to live in, or an increase in mortgage debt because of increased interest rates. For a full list of events covered, please refer to the terms and conditions of the Mortgage Repayment Cover. All increases under this benefit can't be more than 75 percent of the underwritten Mortgage Repayment Cover sum insured. You must apply for the Life Events Benefit within 180 days of the event happening, or within 60 days of the anniversary date after the event happened. This benefit ends on your 55th birthday.	Allows you to keep your insurance up to date with your changing lifestyle, without providing any further evidence of your health.
Vocational Retraining and Rehabilitation Benefit	Cover for costs of vocational retraining or rehabilitation that will help you recover from your total disability or partial disability.	If you're on claim for a total disability or partial disability, and there's a retraining or rehabilitation that's likely to help you get your pre-disability functions back or help you re-enter the workforce, this benefit will pay the lesser of the cost of the retraining or rehabilitation or 24 times the monthly sum insured.	We work with you to find the treatment or training programme that you believe will best help you return to work.
Recurrent Disability Benefit	Waiver of your waiting period if your disability returns within 12 months of going off claim.	If you become totally or partially disabled again because of the same illness or injury within 12 months of the original claim ending for this cover, your waiting period will be waived and your claim for the same illness or injury will be assessed as a continuing claim on the original Total Disability Benefit or Partial Disability Benefit claim.	If you suffer a recurrence of the same disability you would not have to wait out the waiting period again.
